Surface Engineering Days, Tampere

October 31st – November 2nd 2017
Tampere University of Technology
& Vapriikki Museum Centre
Surface Engineering Days, Tampere
October 31st – November 2nd 2017

ETSA High-Kinetic Thermal Spray Coating Workshop
October 31st, Tampere University of Technology
The ETSA High-Kinetic Thermal Spray Coating Workshop is arranged in collaboration with ETSA (European Thermal Spray Association) and Thermal Spray Center Finland. The workshop concentrates on various aspects of high-kinetic thermal spray coating processing, including advanced coating technologies, properties of coatings and industrial applications.

Advances in Surface Engineering Seminar
November 1st, Vapriikki Museum Centre, Tampere
The Advances in Surface Engineering Seminar introduces various advanced surface engineering techniques, coating properties and industrial applications of the coatings.

International TWC Wear Seminar
November 2nd, Vapriikki Museum Centre, Tampere
The International TWC Wear Seminar concentrates on the selection and development of coatings for wear protection, tribological and wear testing of coatings, and practical aspects of wear resistant coatings.

Registration before 20.10.2017 on the web page www.tut.fi/sed

Price for the three day event 1250 € (excluding VAT 24%), two days 950 €, and one day 600 €. The fee includes the material of the whole event, meals, and the evening program.

The invitation and more information can be found on the website: www.tut.fi/sed
