

Plastic types suitable for laser engraving

- Polyamide (PA)
- Polycarbonate (PC)
- Polyethylene (PE)
- Polypropylene (PP)
- Polyoxymethylene (POM)
- Polyarylsulfone (PSU, PPSU)
- Poly ether ketone (PEEK)
- Acrylonitrile butadiene styrene copolymer (ABS)
- Polyimide PI
- Polystyrene PS
- Polymethylmetacrylate PMMA
- Polyester (PES)
- Polyethylene terephthalate PET
- Silicone

Never cut these materials!

- PVC (Polyvinyl chloride)/vinyl/pleather/leather
- Fibreglass
- Coated carbon fibre
- Chlorine containing rubber
